

RAPTOR CAP™

Model
LOEA100

Every serious angler needs a
RAPTORCAP™

- Guards against glare
- Improves visibility
- Protects electronics
- Custom fit to your depthfinder
- Don't miss fish or structure because you can't see your screen!

RAPTORCAP™ enables the angler to better see their electronics display by blocking unwanted light from hitting the screen, thus reducing screen washout, reflections and glare for increased image contrast and improved visibility. In addition, RAPTORCAP™ helps protect your expensive electronics from rain, snow and the sun's destructive ultraviolet rays.

All RAPTORCAP™ models are complete with instructions and an easy-to-use, adhesive-backed Velcro® mounting system which permits quick and convenient attachment or removal of the RAPTORCAP™ – a feature all anglers appreciate. Also, RAPTORCAP™ was designed and is manufactured and assembled in the U.S.A. of the highest quality materials to insure years of trouble-free service!

Please call 630 725-9373 or fax 630 725-9473 to order your RAPTORCAP™.
