# RAPTOR CAP™

- Guards against glare
- Improves visibility
- Protects electronics
- Available for over 150 of the most popular fishing electronics
- Your electronics are loaded with fantastic features – can you see them?

Every serious angler needs a  
**RAPTORCAP™**

Model  
LOEA400

RAPTORCAP™ blocks unwanted light from hitting the screen, reducing screen washout, reflections and glare for increased image contrast and improved visibility. In addition, RAPTORCAP™ helps protect your expensive electronics from rain, snow and the sun's destructive ultraviolet rays.

All RAPTORCAP™ models are complete with instructions and an easy-to-use, adhesive-backed Velcro® mounting system for quick and convenient attachment or removal of the RAPTORCAP™. Also, RAPTORCAP™ was designed and is manufactured and assembled in the U.S.A. of the highest quality materials to insure years of trouble-free service!
