

## **Installation Instructions**

Raptor Fishing Technologies is truly an American company. All of our products are designed, manufactured and assembled in the USA.

Installation Instructions: RAPTORCAP™ comes complete with an adhesive backed Velcro® strip for easy installation.

1. Clean the surface where adhesive is to be applied with alcohol and allow to dry completely.
2. Place RAPTORCAP onto your electronic unit so the pre-attached Velcro® strip is completely touching your electronics and the weather strip is lightly compressed between the electronic unit and RAPTORCAP.
3. Mark the placement of the Velcro® strip onto your electronic unit with a non-permanent writing utensil.
4. Remove RAPTORCAP. Using the marks as a guide cut the adhesive backed Velcro® to the desired length.
5. Peel tape from backing and press Velcro® firmly in place.
6. Allow adhesive to cure for 24 hrs. before placing RAPTORCAP onto the electronic unit.
7. Congratulations! You can now install and remove your RAPTORCAP as needed.
