

RAPTOR TAIL™

RaptorTail™ FlexCable™ Chassis Load Test Results

Independent lab tests show that the FlexCable™ chassis exceeds 250 lbs. peak load and the sleeves hold!

Every RaptorTail™ is built on our exclusive FlexCable™ chassis using 250 lb. test, aircraft-grade cable which gives the RaptorTail™ the **lifelike motion** and **incredible strength** required to attract and land trophy fish. The no-kink FlexCable™ chassis insures easy, all-day casting with less fouling and less tuning. **That means more productive, trouble-free fishing!**

You know what size and colors work for you.

That's why the RaptorTail™ is available in multiple sizes and weights, with choices of color and number of blades and the option of premium marabou or bucktail skirts available in a myriad of colors. With over 4,000 combinations possible, you're sure to find a RaptorTail™ to suit **YOUR** fishing needs.

PH-002-0207

Our distinct FlexCable™ “chassis” (seven strand stainless steel cable)

- * Exceeds 250 lb. load test
- * Resists kinks, unlike rigid wire bucktails
- * Allows for more lifelike movement
- * Takes the leverage away from the fish, reducing thrown lures

RaptorTail™ is available in 3 sizes

6 ½ inch

7 ½ inch

10 inch (*Features dual hooks and exclusive offset hook bracket*)

*All RaptorTails™ are offered in single and dual blade models. The 6-1/2 and the 7-1/2 inch models are available as both weighted and non-weighted. (Weighted lures have .5oz. brass weights)

Select your inventory preference

Go totally custom with over 4000 combinations for size, weight, skirt, and blade configurations in a rainbow of colors. Or, simplify the buying process and ask your Raptor representative about the “New Retailer Pack” of our most popular combinations.
